Board held discussion of county's property, liability and workman comp insurance. Jane Regan, Leschensky Insurance, is currently the agent on record with EMC Insurance for the county. Jim Bieber, Bieber Insurance, would like the Board to do a 3yr rotation between himself and Regan for the agent on record. Board felt it is late in the year to put out the request for proposal as the renewal goes into effect on March 1st and need time to go over the billing process within the courthouse. Regan informed the Board everyone in her office is licensed for commercial accounts which allow her staff to help the county in her absence. Bieber is currently the only commercial licensed staff in this office, but one of their employees is working on getting licensed also.

Board made no decision on insurance.

MINUTES OF THE ALLAMAKEE COUNTY BOARD OF SUPERVISORS
MONDAY, JANUARY 16, 2012

Board met as preadjourned. Board members present Burke, Strub and Schellhammer. All members voting "AYE" unless noted.

12.028-Motion by Strub and second by Burke to approve agenda and minutes of January 9, 2012. Motion carried.

Gil Hunstad, Elaine Eadie, Bill Shafer, Bev Larson-Needham, Ann Burckart, Loren Beneke, Deb Winke and Jim Garrett present.

Compensation Board presented their recommendation to increase the elected officials' wages 5% for FY13. Bill Shafer and Gil Hunstad both stated Allamakee County is ranked 57th in population, but salaries are 80th or lower for most officials and feel the county should start the process of narrowing the gap. Elected officials would be managers in a private business and should be paid accordingly for the extra duties and responsibilities they have over other employees. No action was taken on the compensation board recommendation of 5%, will continue at budget time.

Discussion took place about the "alley" behind Vet's Club and the land under City Hall, both which are currently owned by the county. In 2004, discussion of the City of Waukon taking both over had taken place, but did not go through. Jim Garrett thought there was concern over the building if the city moved their offices to a new location. Mayor Loren Beneke assured the Board there has been no talk of moving the city offices. A survey will need to be done before a deed can be given to the City and Schellhammer asked about splitting the cost of this with the city. Burke would like the stipulation the alley would always remain open and not turned into a dead-end road in the future. Schellhammer also asked if the City would be willing to assume snow removal duties before the deed can be given? Garrett will discuss these concerns at the city council meeting and bring the answers back to the Board.

Jill Kistler asked the Board to go into closed session to discuss pending litigation.

12.029-Motion by Strub and second by Burke to go into closed session at 10:01 am to discuss pending litigation per Code of Iowa section 21.5(1)(c). Burke-aye, Strub-aye, Schellhammer-aye. Motion carried.

12.030-Motion by Strub and second by Burke to go out of closed session at 10:08 am. Burke-aye, Strub-aye, Schellhammer-aye. Motion carried.

12.031-Motion by Burke and second by Strub to approve county attorney sending a letter to Attorney Marion Beatty in regards to the letter Board received from Thomas Schaumberg. Motion carried.

12.032-Motion by Strub and second by Burke to approve Secondary Roads Transfers of \$8,419.83 from General Basic to Secondary Roads Fund and \$116,646.13 from Rural Services to Secondary Roads Fund. Motion carried.

Tom Bushman and Russ Sporer talked to the Board about ICAP insurance and would like the opportunity to quote the property/liability/worker's comp insurance next year.

Arne Beneke, Bev Larson-Needham, Laura Olson, Brian Ridenour, Jeannie Carroll, Scott Willger, Rev Lonning, Tom Blake, Ann Burckart, Tim Heiderscheid, Doug Mullen and Colleen Gragg present.

Laura Olson presented the recommendation from the committee for a Revolving Loan Fund application for A-OK Well Service for \$15,000.

12.033-Motion by Strub and second by Burke to approve a \$15,000 Revolving Loan Fund at 1.3% interest for 3 yrs with option of one renewal for A-OK Well Service. Motion carried.

The insurance committee presented the Gundersen Lutheran Healthplan rates for FY13. The rates have gone up but with some changes in the Rx plan the committee was able to keep the increase around 10%. They are asking the Board for an additional \$17/mo per employee, while the employee will pay the additional, if applicable, on the plan they choose. Arne Beneke talked about a HRA (health reimbursement account).

12.034-Motion by Burke and second by Strub to accept the recommendation of the insurance committee and approve the Gundersen Lutheran Healthplan rates for FY13, also to give an additional \$17/mo per employee towards the health insurance plan of their choice. Motion carried.

12.035-Motion by Strub and second by Burke to approve Law Protection contract between Allamakee County and City of Harpers Ferry for \$1,250 per month/\$15,000 annually. Motion carried.

12.036-Motion by Strub and second by Burke to approve second reading of Ordinance XLII – Amendment to the Allamakee County Zoning Ordinance to Change Travel Trailer Park/Commercial Campground from a Permitted Use to a Conditional Use in the A1 Zone. Motion carried.

Board will hold 3rd reading and adopt Ordinance XLII next week.

Previous to the survey, there was a metes & bounds description which listed lot size and a 1900 plat referenced to an 1899 deed, which were in conflict of each other and have never been questioned throughout the years. Mike Gallagher had received bids for concrete work for three projects and are as follows: #1) Parking/Sidewalk area at VA/Relief building – Kelly Concrete \$3,662; Al Fogt Concrete \$3,670; Meyer Concrete \$3,285. #2) North Ramp/Wall – Kelly Concrete \$3,438; Al Fogt Concrete \$3,550; Meyer Concrete \$4,250. #3) Generator Pad Extension – Kelly Concrete \$480; Al Fogt Concrete \$625 + rock; Meyer Concrete \$530. Gallagher recommends going with low bid for individual projects.

Ridenour has gone over the proposal from WVH for the air conditioning system, as the Board had asked last week, and feels they should hire an actual mechanical engineer to assess the needs of the air conditioning and other needs of the building before committing to the expense. Ridenour also reminded the need to be mindful of the historical aspect of the building when doing any projects. Gallagher will try to contact a mechanical engineer from a list Ridenour had compiled in 2003.

The survey is done on the VA/Relief property and Gallagher would like to landscape behind the building. Burke recommended mulch instead of rock. Gallagher will work with Ridenour to bring in additional dirt, spray and mulch, including a small 10' section owned by the City of Waukon, which the county has taken care of in the past.

Ridenour informed the Board he had been approached by a neighboring land owner to put an entrance from A26 to the Holy Cross Cemetery, which is a Pioneer Cemetery. Ridenour will do more research on this and talk with the church that owns the cemetery.

Minutes of the Allamakee County Conservation Board

****This was not a regular Board of Supervisors meeting, but was posted that Supervisors attended the Conservation Board meeting. These are minutes from the Conservation Board meeting.**

The Allamakee County Conservation Board meet in regular session at 1:00 P.M. Tuesday July 10, 2012 at the Columbus Bridge Property located at 1978 Great River Road. The July 2012 meeting had been moved from the first Tuesday of the month due to Board Member and staff scheduling conflicts with the first Tuesday falling on July 3rd. The meeting was held at the Columbus Bridge Property to discuss development planning with the Allamakee County Board of Supervisors and the public. Thirty five people were in attendance. Conservation Board Members present were Dennis Blocker, Dave Carroll, Marilyn Clark, Bill Moody, and Gary Soper. Present from the Allamakee County Board of Supervisors included Lennie Burke, Sherry Strub, and Larry Schellhammer. Other Allamakee County representatives in attendance included Allamakee County Engineer Brian Ridenour, Allamakee Attorney Jill Kistler, Planning and Development Coordinator Tom Blake, and Economic Development Director Laura Olson. Also present were Conservation Board Staff Members Jim Janett and Jarrod Olson. Executive Director of the area RC&D Executive Director Lora Freist was attending. Allamakee County Community Foundation members present included Bruce Re Vior and Brian Houlihan. Present were Allamakee County Conservation Foundation members Dave Duncklee, Clem Schulte, and Jane Regan. Regan also is Allamakee County's Representative on the Mississippi River Parkway Commission. Attending was Eastern Allamakee County Community Schools Superintendent Dale Crozier, Lansing Commercial Fishing Museum proprietor Karen Galema, Mark Moine from Gardner Architecture, Roger Mohn from Mohn Engineering, Lansing Main Street Matters Executive Director Sara Thompson. Attending was James Kerndt who is President of Kerndt Brothers Bank and also an adjoining landowner. Others attending included retired County Engineer Willaim Kerndt, Bruce Palmborg, Mary Palmborg, Joe Pap, Bill O'Connor, Ric Zarwell, Betty Zarwell, Judy Schild, and Sue Stirn.

The meeting was called to order at 1:00 P.M. and the minutes from the previous meeting were read and approved.

Claims and revenues were reviewed and approved by the Board. Ending balance summaries from the 2011-2012 Fiscal Year Budget were provided to the Board. The Board ended the fiscal year with a \$1,757.13 balance. The balance did not include Historical Society balances.

The Director provided the public attending the meeting a brief history of the Columbus Property ranging from the location first serving Allamakee County as a County Seat and the first District Court hearings held in Allamakee County being at this location. A summary of the recent use of the property was provided. This included the Board of Supervisors past decision to remove the structures from the property and the actions taken by the County Engineer and the Conservation Board to remove the structures, septic's, and well capping. The history of the current proposed development of the property was discussed. The development of the property as Driftless Area Education and Visitor was first identified to the Conservation Board in the REAP plan in the early 1990's. Since the Allamakee County Board of Supervisors transferred management of the property to the Allamakee County Conservation Board three years ago, the Conservation Board has had continued public input to develop the property as a visitor and education center. The Conservation Board has been moving forward with the development of an education and visitor center by obtaining planning grants and retaining engineering and architectural services. The Conservation Board had received two planning grants from the Allamakee County Community Foundation totaling \$12,000.00. These funds have been used for site planning including building design, topographic maps, and water and septic, and construction cost estimates for grants.

Planning and construction costs were discussed. Lora Friest representing RC&D had prepared and submitted a National Scenic Byway Grant for the construction of the Education and Visitor Center totaling 1.3 million, the projected total cost of the project was estimated at 2.2 million. The Board discussed submitting a \$700,000.00 REAP grant for the upcoming grant cycle for the project. How the REAP grant is written and the amount of the grant will differ based on if the National Scenic Byways Grant is funded. The Director indicated the body of the REAP grant will be similar and adjustments can be made in the budget section of the grant to accommodate grant funding announcements. Information was provided regarding the composition and efforts of the Allamakee County Conservation Foundation and their role in fundraising for the project.

The Conservation Board discussed the variance requested with the Board of Supervisors and Tom Blake. Blake discussed the basis for recommending to the Board of Adjustment not to approve the variance submitted to the Board of Adjustment for parking on County Road Right of Way. Blake indicated that the plans for the project would make a stronger application showing some onsite parking. Gardner Architecture Architect Mark Monie and project engineer Roger Mohn discussed different design options. Board of Supervisor Larry Shellhammer suggested conducting a project planning meeting with the necessary individuals to address submitting a variance that will address some onsite parking options. The Conservation Director will coordinate the meeting in the near future. Suggestions regarding reducing the size of the building were discussed, Lora Friest voiced concerns about changing the building to much could affect the National Scenic Byways Grant that has been submitted for the project.

The Board addressed questions from the public regarding the proposed project. Comments were positive and many offers were made to aid and assist the development of the project. People in attendance encouraged the Conservation Board to be diligent in pursuing the project and to notify them to attend any meetings that may require support for the project.

Updates were provided on Fish Habitat Grant's and project specifications. Permits were complete for phase one of the stream bank stabilization on the Columbus Property. Phase two funds may have to be turned back into the Fish Habitat Account due to issues with Rail Road compliance. Permits for stream bank stabilization projects for Volney Park and Phase I of Columbus have been filed and are waiting approval. The Director informed the Board that he hoped to complete the projects during the month of September depending on having optimum water levels. Bid specifications for rock and machine time will be completed.

Field operation items were presented to the Board. Items included painting of the exterior of the shop, minor high water debris removal, replacement of office AC unit, kiosk construction being completed at New Albin Park, and plans for placing steel on Harpers Ferry Bluffview shelter house and restroom.

The Board left the Columbus Bridge Property and viewed road #224 south of the Alliant Energy Power Plant. The Conservation Board has completed some clearing of the tree canopy along the road and will be competing more clearing in the future. The goal of the Conservation Board is to maintain a hiking trail on the roadway which extends approximately 1.75 miles. The Conservation Board asked the Board of Supervisors not to support any request in the future to vacate the road.

The next Conservation Board meeting will be held at 1:00 P.M. Tuesday August 7, 2012.

There being no additional business a motion was made by Carroll, second Clark, all in favor, motion carried. The meeting was adjourned at 3:30 P.M.

Roll call vote: Burke-Aye Strub-Aye Schellhammer-Aye Motion carried.

RESOLUTION NUMBER 12.200

RESOLUTION OF ALLAMAKEE BOARD OF SUPERVISORS REQUESTING THE PLANNING AND ZONING COMMISSION TO CONSIDER THE ADOPTION OF A MORATORIUM ON CONSIDERATION OR APPROVAL OF CONDITIONAL USE PERMITS FOR FRAC SAND MINING.

WHEREAS:

The Allamakee County Board of Supervisors finds that there has been a rapid international expansion in the use of hydraulic fracturing in gas and oil exploration, which in turn has resulted in a rapid growth in demand for the type of sand used in these processes.

The Board notes that the rapid expansion of sandstone mining in nearby counties has been attended by issues and concerns regarding the public health, safety, and welfare.

The Board further finds that Allamakee County will likely be subjected to similar pressure to open such sand mining, but that the Allamakee County Comprehensive Plan may not adequately address the mining of frac sand and the concerns that accompany frac sand mining. The Board finds that the Allamakee County Comprehensive Plan may need to be updated to address sandstone mining, and that once studies and appropriate updates have been completed, the Allamakee Zoning Ordinance may need to be amended so that the Allamakee County Board of Adjustments, when considering conditional use permits for frac sand extraction pits and site plan approvals for frac sand extraction pits, can apply appropriate guidelines which may better protect the health, safety, and welfare of the residents of Allamakee County.

The Board further concludes that Allamakee County is facing a significant new land use issue for which its existing land use regulations may not adequately address. Serious risks to the health, safety, and welfare of Allamakee residents may result if the County is required to apply its existing land use regulations in processing the applications for conditional use permits for frac sand extraction pits. The Board further finds that a temporary emergency may exist as a result of the issues posed by this new land use issue.

The Board further concludes that a moratorium on the receipt, consideration, and issuance of conditional use permits for extraction permits associated with frac sand mining should be put into place in order to preserve the status quo for a reasonable time while the County investigates possible land use strategies to respond to these new or recently perceived frac sand mining issues.

The Allamakee Board of Supervisors further finds that it has authority to impose a moratorium for a reasonable period of time under the circumstances it faces, pursuant to Geisler v. City Council Cedar Falls, 769 N.W.2d 162 (Iowa 2009), which held that the imposition of such a moratorium is a legislative, rather than a quasi-judicial act.

The Allamakee Board of Supervisors further finds that the issue of the imposition of a moratorium regarding frac sand mining should be first referred to the Planning and Zoning Commission for hearing and recommendation.

THEREFORE, BE IT RESOLVED that the Allamakee County Board of Supervisors requests the Planning and Zoning review the issues outlined above and afterwards issue a recommendation to the Board of Supervisors for or against the adoption of a moratorium prohibiting the issuance of any conditional use permits for frac sand extraction pits and site plan approvals for frac sand extraction pits

BE IT FURTHER RESOLVED, that if the Planning and Zoning Commission issues a recommendation to the Board of Supervisors in favor of the adoption of a moratorium, that

they also provide the Board of Supervisors with a recommendation as to the length of the proposed moratorium.
