Approval of Minutes: The approval of the minutes for January 13, 2014 and December 6, 2013 were tabled until the next regular meeting.

Public Comment: None.

Public Hearings: None.

Old Business: Silica Sand Mining—Ordinance drafts review—The members reviewed the updated draft ordinance that incorporated parts of the Winneshiek County draft ordinance and sections incorporating input from the public forum’s held by the Commission. Commission consensus to add the time frame for action on an application for a permit, incorporating in the 90 day period. Also, Board consensus to add clause that revokes permit if no activity for one year.

New Business:

a) Consensus of members to set the next meeting for February 18th at 5:00 PM and to keep the 5:00 PM meeting time through March, 2014.

b) Pladsen made a motion to conditionally approve the Gerald Bechtel Subdivision Plat. Cahoon seconded. MCU.

c) Gragg made a motion to recommend denial of the George and Belva Ashbacher Subdivision Plat until subdividers intent is determined (due to plat creating several substandard lots.) Pladsen seconded. MCU.

d) Pladsen made a motion to recommend removing the Ag Legend from the Wes and Brenda Lawson subdivision Plat. Gragg seconded. MCU.
e) Gragg made a motion to recommend approval of the Roger and Sandra Pladsen subdivision Plat. Cahoon seconded. MCU.

Planning and Zoning Staff present: Tom Blake, Zoning Administrator. See attendance sheet for public and others in attendance. All Board members voting “AYE” unless noted. MCU means Motion Carried Unanimously.

Approval of Agenda: Pladsen made a motion to approve agenda. Gragg seconded. MCU.

Approval of Minutes: The minutes were read and discussed. Three corrections regarding those in attendance and time of meetings were corrected. Pladsen made a motion to approve the December 16, 2013, January 13, 2014 and January 27, 2014 minutes as corrected. Gragg Seconded. MCU.

Public Comment: Jack Knight was present and commented that Winneshiek County was doing substantial research into the defensibility of the regulations that they are considering on imposing on sand mining. Also, a Community Bill of Rights has been presented to the Winneshiek county Board of Supervisors for consideration.

Public Hearings: None.

Old Business: Ordinance amendment regarding Extraction Pits was reviewed—

- The members reviewed and discussed the ‘findings’, and definitions. “Viewshed” was discussed. Jack Knight would send Blake a technical definition of the term from the RC&D.
- The changes in a Pit that would necessitate a new Conditional Use Permit were discussed.
- “5. The use or application of water to wash or process excavated or mined minerals or other material.” was removed from 305.4-Prohibited Activities.
- Water quality and quantity was discussed. Since the county does not regulate the permitting of ‘high capacity wells’, alternatives were considered regarding efficient use of water by the operator. A possibility of using LEED ‘green’ certifications was discussed. Blake is to research and bring a recommendation to the Commission at the next meeting.
- Stream setbacks were discussed. Definition of ‘stream’ may be needed. Blake will research. The one-mile setback, recommended by the Iowa Policy Project study, is also the distance recommended by the Minnesota Environmental Quality Board. Consensus to incorporate the one mile setback.
- Members felt it would be beneficial to have a map incorporating all of the relevant setbacks or prohibited areas.
• The setback from residences and residential subdivisions was discussed. What was meant by residential subdivision was discussed and Commission felt a definition may be needed.
• Hours of operation were discussed.
• Discussion about what would trigger air quality monitoring was held. Blake felt that it should be left to the Board of Adjustment, but felt that their decision would be based on public input, Environmental Assessment Worksheet, staff recommendations and other factors such as material mined, distance to residences or other uses, etc.. Consensus to leave to the BOA for final decision regarding whether or not to require study.

New Business:

a) Cahoon made a motion to set a worksession for March 3rd at 5:00 PM. Pladsen seconded. MCU. It was decided that the Supervisors should be invited to the worksession. It was consensus to possibly hold the public hearing at the next regular meeting.

Adjourn: Cahoon made a motion to adjourn. Pladsen seconded. MCU.

See attendance sheet for public and others in attendance. All Board members voting “AYE” unless noted. MCU means Motion Carried Unanimously.

Approval of Agenda: Everman added ‘Discussion of Ordinance Changes’ under New Business. Leppert made a motion to approve agenda as amended. Pladsen seconded. MCU.

Approval of Minutes: Gragg made a motion to approve the March 17, 2014 minutes. Cahoon seconded. MCU. Gragg advised that the April 15, 2014 minutes be amended to show that the Supervisors, Engineer and Attorney were not in attendance and that there was no attendance sheet. Pladsen made a motion to approve the April 15, 2014 minutes as amended. Cahoon seconded. MCU.

Public Comment: None.

Old Business: Blake presented correspondence from Karla Organist, Upper Explorerland Regional Planning Commission regarding the process and costs for updating the Allamakee County Comprehensive Plan. Consensus of the Planning Commission is to move ahead with the project.

New Business:

a) Discussion of Extraction Pit Ordinance changes: Blake presented correspondence from Attorney Karl Knudsen and County Engineer Brian Ridenour addressing typographical corrections and minor changes in the text of the ordinance. The changes recommended clarified the intent of the ordinance and did not substantially change any section of the ordinance.

   a. Preamble changes to reflect that the Commission and Supervisors have determined that industrial sand mining creates special concerns and that it shall be subject to the new Section 305-Extraction Pits ordinance to ensure compliance with the Comprehensive Plan.

   b. Section 305.7 addition to clarify that the site shall be closed and reclaimed prior to release of the insurance bond.
b) Pladsen made a motion to approve a resolution removing the agricultural exempt legend restriction from a subdivision plat submitted by Merlin and Rebecca Gesing and recorded on February 6, 2014 as Book A-4, Page 49-56. Cahoon seconded. Ayes, Cahoon, Pladsen, Gragg, Leppert, Everman. Nays, None. Motion Carried.

c) Leppert made a motion to approve Shawn Meyer request for a 1.75 acre lot located in the NW NE, Section 11, T100N, R5W for a non-farm commercial use that is permitted in the A-1 zone (implement repair) Cahoon seconded. MCU.

Public Hearings: It being the time and place as published, Gragg made a motion to open the public hearing to hear comment on a proposed amendment to Section 305 – Extraction Pits of the Allamakee County Zoning Ordinance. Pladsen seconded. MCU.

Preamble language was reviewed and discussed. Typo errors and verbage changes were reviewed. Robert Niemann addressed the Commission regarding changing the ordinance language to add the Wonewoc formation to the already mentioned St. Peter and Jordan formations. It was the consensus of the Commission, after discussing with the Attorney Kistler and Karl Knudson to add the Wonewoc formation to the Preamble section of the ordinance amendment proposed to the supervisors.

Ric Zarwell addressed the Commission, suggesting that returning processed sand that may be contaminated with flocculants to the site should be part of the prohibitions in section 305.4. Blake pointed out that the materials being brought to the site had to be disclosed as part of the reclamation plan. At that point, use of that material would be subject to review and approval. After discussion it was the consensus to add language prohibiting returning previously mined and processed sand to the site under Section 305.4.

John Smola addressed the Commission, advising that a step is left after this ordinance passes in Allamakee County.

David Anderson addressed the Commission, recommending that more specific regulations be incorporated to address air and water quality standards that would need to be met. Discussion was held on the requirements already in place in the proposed ordinance, that studies were ongoing and that there will be new standards and additional information regarding this that is not yet known. Knudsen commented, advising that the ordinance is adequately written in regards to this topic. Jack Knight advised that as more is learned from ongoing studies, the ordinance may be amended to reflect the new information. Consensus of Commission to not make any changes regarding air and water quality standards or monitoring.

Ann Klees asked the Commission who would hire the consultants mentioned in the ordinance. Commission advised that the intent was for the County to hire them and the costs were to be borne by the applicant.

Niemann advised that new dust control methods being proposed would treat sand being transported with proprietary or unknown chemicals and that the hazards of such were not known.

Doug Weymiller thanked the Commission for their work and commented that he was pleased with the ordinance. It was more restrictive than he expected it would be.

Niemann questioned the removal of a section dealing with dust and noise pollution. Commission advised that it had been moved to a more appropriate location in the ordinance, 305.5 and 305.11.

Zarwell commented that he would like to see more detail or standards for the reclamation of a site and a definition of what was meant by reclamation. He also wanted to see regulation language addressing ‘boreholes’ that are being used when exploring for this sand. Neverman advised that the Commission discussed this in great detail and felt that ‘boreholes’ were a public health issue and should be dealt with under the Board of Health. Blake advised that the Reclamation Plan needed to be submitted with the Application and would be reviewed by the Board of Adjustment and the public under the Conditional Use Permit process.

Mary Abbas commented that the major concern in all of this was the citizens right to clean air and water. While the Commission has worked hard to address this, the concern still remains.

Karl Knudsen commented that he strongly agrees with the Commission Chair and Mr. Blake, boreholes are not a zoning issue. However, he did feel that the ordinance would benefit from some additional standards addressing reclamation. Blake advised that Winona County has adopted a “Policy” addressing best practices...
concerning reclamation of sites. Blake felt that this would provide a more flexible approach to reviewing reclamation plans but would still encourage meeting standards recommended in the policy document.

Zarwell commented that there has not been any ‘good’ reclamation sites. The issue and the existing mines are too new. Gragg questioned, “Do we need to add a definition of ‘reclamation’ in the ordinance definitions, or is it a ‘common term’? Commission consensus that a definition of ‘reclamation’, in addition to what was already in the ordinance, was not necessary.

There being no further comment, Everman made a motion to close the public hearing. Cahoon seconded. MCU

Gragg made a motion to recommend the Board of Supervisors adopt the ordinance amendment, amending Section 305 of the Allamakee County Zoning Ordinance, as finalized. Pladsen seconded. MCU.

Adjourn: Cahoon made a motion to adjourn. Pladsen seconded. MCU.
